Good ideas are the backbone of good government.

The Schweitzer-Bohlinger Administration is seeking Montanans of all backgrounds and interests to serve on boards and commissions. [State law](#) directs state government to take positive action to attain gender balance and proportional minority representation to the greatest extent possible. The Schweitzer-Bohlinger administration considers this to be one of the highest priorities -- especially encouraging the participation of the first Montanans -- our state's Native Americans.

There is an appointment procedure, and you should know that some boards have very specific requirements, as noted above. Please be advised that by applying for a position, you acknowledge the following:

- All submissions for appointments become public documents and therefore are open to public inspection.
- Background checks may be conducted during this process.

Are you interested in serving on a board or commission or would like to recommend someone? We invite you to submit your name for consideration using the online form at: <https://app.discoveringmontana.com/appoint/>. Please note you can attach your resume and other information to this online application form. You may also apply or recommend someone by sending a letter and/or resume to:

Governor Brian Schweitzer
